PROFILE SUMMARY

Backend-focused Java and Spring Boot Developer building scalable, secure, and high-performance applications. Strong expertise in REST API development, JPA/Hibernate, MySQL, Spring MVC, and authentication (JWT/Spring Security). Skilled in building backend systems, writing clean and optimized Java code, following microservices principles, and collaborating in Agile teams for production-ready delivery.

WORK EXPERIENCE

Tata Consultancy Services (TCS) - Software Engineer
Java + Spring Boot Developer

June 2024 - Present

- Developed and maintained REST APIs using Java, Spring Boot, Spring MVC, JPA, Hibernate, and MySQL.
- Implemented authentication and authorization using JWT + Spring Security for secure endpoints.
- Created reusable service-layer components and repository layers using Spring Data JPA.
- Improved API performance by optimizing SQL queries, pagination, and indexing.
- Implemented global exception handling, DTO conversions, and validation using Hibernate Validator.
- Designed relational database schemas and optimized queries for large data sets.
- Integrated backend APIs and optimized service communication for scalable application architecture.
- Developed microservices following clean architecture and modular design.
- Developed backend modules following clean architecture and modular design principles.

TECHNICAL SKILLS

Languages: Java, C++

Backend: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code

Cloud: AWS (Basic)

Concepts: OOP, JWT Authentication

EDUCATION

Kalinga Institute of Industrial Technology

Bachelor of Technology in Computer Science Engineering - CGPA: 8.59

Bhubaneswar, Odisha

2020 - 2024

PROJECTS

[Repository Link](#)

1. Employee Management System (Java + Spring Boot + MySQL)

- Built REST APIs using Spring Boot + JPA + Hibernate for employees, roles, and departments.
- Implemented CRUD operations, pagination, sorting, and filtering.
- Used Spring Security + JWT for authentication and role-based access.
- Integrated exception handling and custom responses.
- MySQL used for relational schema design.

2. Vehicle Rental Platform (Java + Spring Boot + MySQL)

- Built scalable REST APIs using Java, Spring Boot, and Spring Data JPA for vehicle booking and rental operations.
- Implemented JWT auth, booking logic, and document validations.
- Implemented backend modules for booking workflow, validation, and secure API access.

ACHIEVEMENTS AND CERTIFICATIONS

Solved more than 300+ problems of Data Structure and Algorithms (DSA) across Coding Platforms (LeetCode and GFG)

Appreciation Certificate - Group Representative (GR), Initial Learning Program By TCS

2024 Xcelerate Warrior Recognition by Tata Consultancy Services 2025

On the Spot (Team) Award by Tata Consultancy Services

2025 Best Team Award by Tata Consultancy Services 2025

On the Spot Award by Tata Consultancy Services 2025

On the Spot Award by Tata Consultancy Services 2026
